

Floor Lamp

- Radar Transmitter Floor Lamp
- MHF-MXYL95131-1

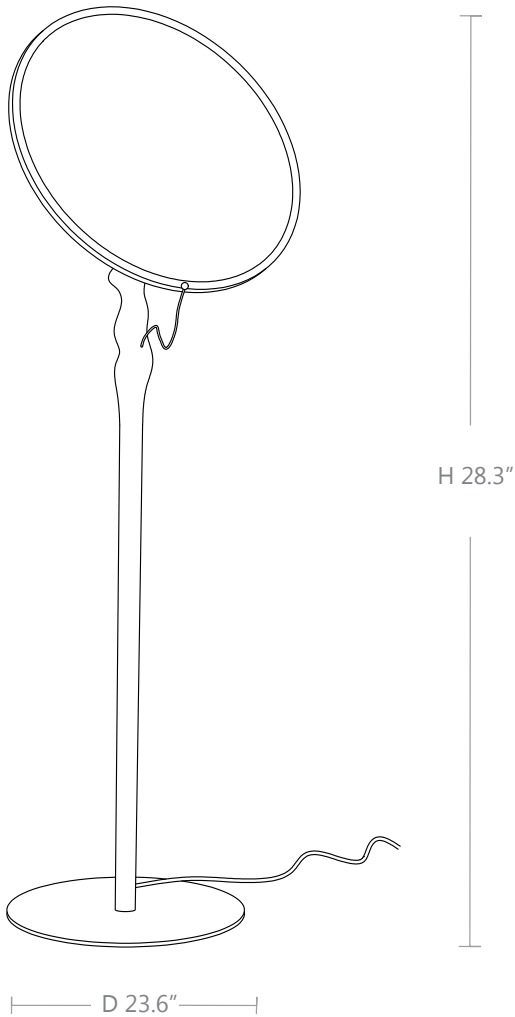

MATERIALS

- Metal
- Wood
- Acrylic

PRODUCT DESCRIPTION

Futuristic design meets organic craftsmanship in the Radar Transmitter Floor Lamp from Mooiehome. With its bold, dish-like acrylic shade etched in delicate, wave-like patterns, this artistic piece recalls the elegance of a satellite dish scanning the skies — reimagined as a functional work of light. The sculptural wooden body, grounded by a sturdy metal base, adds warmth and sophistication, blending seamlessly with both natural and modern interiors. Its adjustable angle and soft ambient glow make it an ideal choice for reading corners, creative studios, or living spaces that call for a touch of the extraordinary.
