

Table Lamp

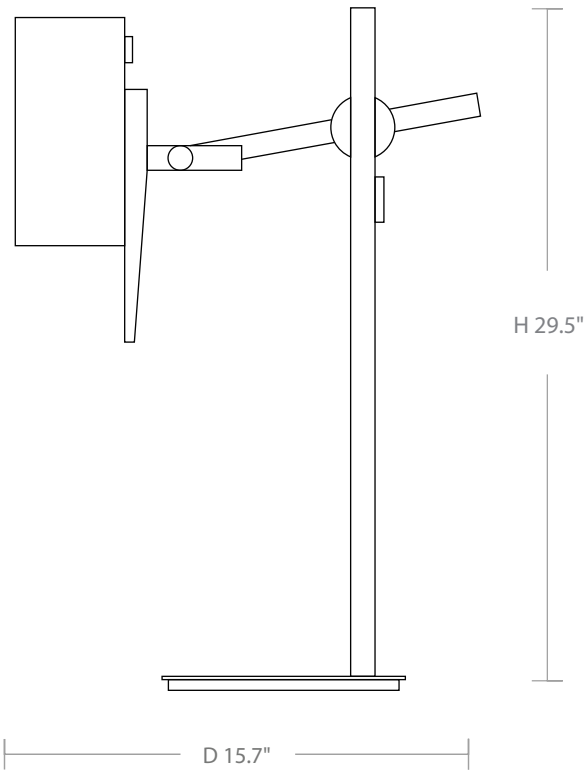

- Scantling Table Lamp 15.7"
- MHT-

MATERIALS

- Wood
- Carbon steel
- Aluminum

PRODUCT DESCRIPTION

The Scantling contrasts faux metal with natural solid oak. The graphic geometry of the lines unifies these incongruous materials. The craftsmanship of the hinged wooden arm makes the lamp shade fully adjustable, without the need for weights or springs. While Scantling certainly creates an ambiance, its direct beam also makes it a perfect reading lamp.
